Go Local By Banking Locally with Your Community Bank

As small businesses themselves, community banks only thrive when their customers and communities do the same, so taking care of their customers and looking out for the best interest of their community is engrained in the way they conduct their business each and every day. And when consumers call their local community bank, they'll be reassured to know that they won't be talking to someone halfway across the globe. Instead, they will be talking with their community banker who lives and works in the same community they do.

To find your local community bank, visit ICBA's community bank locator at www.icba.org/locate. Simply type in your zip code and the app will show you all the community banks in your area. You can even download free ICBA locator apps for your iPhone, Android or Blackberry.
