Dear Speaker Pelosi, Leader McCarthy, Leader McConnell, and Leader Schumer:

On behalf of the undersigned trade associations, we write to express our strong support for the inclusion of the *Securing and Enabling Commerce Using Remote and Electronic Notarization Act (SECURE Notarization Act)*, in the legislative package from Congress intended to address the economic fallout from COVID-19. This bipartisan legislation (S. 5355, H.R. 6364) introduced by Sens. Cramer (R-ND) and Warner (D-VA), and Reps. Reschenthaler (R-PA) and Dean (D-PA), is needed to immediately provide real estate transaction alternatives for consumers.

Remote Online Notarization (RON) laws allow businesses and consumers the ability to execute critical documents using two-way audiovisual communication. Current requirements for a signer to physically be in the presence of a Notary are antiquated and unnecessary in a time of heightened awareness and social distancing. Twenty-three states have already recognized the benefits of RON technology and passed legislation, while many more are currently considering similar proposals.

Given the dramatic adjustments businesses have had to make during the COVID-19 outbreak, the federal government has the opportunity to provide critical tools so they can continue operations. The *SECURE Notarization Act* would allow for the immediate nationwide use of RON technology. The legislation provides certainty for interstate recognition of RON and establishes minimum standards to ensure strong consumer protections. Current or future state laws meeting the national minimum standards will supersede this federal law. This will allow Americans the ability to complete real estate and loan transactions without having to gather at a closing table and risk contracting or spreading COVID-19.

The sale and transfer of real estate in the U.S. is a major economic driver that creates financial stability. Additionally, at current mortgage rates, refinancing will immediately save Americans money, precisely at the time when many homeowners are facing serious financial challenges related to the pandemic. We urge you to support the industry and consumers by passing the *SECURE Notarization Act*, in any stimulus package.

Sincerely,
