### The Prerequisites: What You Need Before You Begin

Before you embark on the journey to unlock TiviMate Premium, ensure you have the following essentials:

1. **TiviMate App (Free Version Installed):** You should already have the base TiviMate app installed on your preferred Android device.
2. **An Android Device:** TiviMate is designed for Android. This could be an Android TV box (e.g., NVIDIA Shield, Formuler), an Android smartphone or tablet, or popular streaming sticks like the Amazon Fire TV Stick.
3. **Reliable Internet Connection:** A stable and fast internet connection is crucial for streaming high-quality IPTV content and for the activation process itself.
4. **A Valid IPTV Subscription:** While TiviMate is the player, an IPTV subscription is your content source. Without one, TiviMate won't have anything to play! For the best possible streaming quality and an expansive content library, make sure you choose a reputable provider. Visit [iptvbestprovider.org](http://iptvbestprovider.org) today to secure your premium IPTV service.
5. **A Google Account:** TiviMate Premium is officially purchased via the Google Play Store, so a Google account (linked to your payment method) is essential.

### Method 1: Unlocking TiviMate Premium via Google Play Store (Official & Recommended)

This is the most straightforward, secure, and recommended method to get TiviMate Premium. It involves purchasing a subscription through the official Google Play Store.

#### Step-by-Step Guide:

1. **Install the TiviMate Companion App:**  
TiviMate Premium is activated through a separate application called "TiviMate Companion." You'll need to install this app on an Android mobile device (smartphone or tablet) that is linked to the same Google account you intend to use for your TiviMate Premium subscription and on your Android TV device.  
Go to the Google Play Store on your mobile device.  
Search for "TiviMate Companion" and install it.
2. **Open TiviMate Companion and Purchase Premium:**  
Launch the TiviMate Companion app on your mobile device.  
You will see options to "Purchase Premium." Select this option.  
Choose your desired subscription duration (e.g., 1 year or lifetime, if available).

Follow the on-screen prompts to complete the purchase using your Google Play Store payment method. Ensure your Google account is properly set up with a valid payment method.

Once the payment is successful, your Google account is now linked to a TiviMate Premium subscription.

### 3. Activate Premium on Your TiviMate App (on your Android TV Device):

Now, switch to your Android TV box, Firestick, or other Android streaming device where the main TiviMate app is installed.

Open the TiviMate app.

Navigate to Settings.

Scroll down and select Unlock Premium.

You will be prompted to log in with your Google account. It is crucial to use the EXACT SAME Google account that you used to purchase TiviMate Premium via the Companion app.

Enter your Google email address and password.

TiviMate will verify your purchase. Once successful, you will see a confirmation message, and all Premium features will be instantly unlocked!

### Important Notes:

**Google Account Consistency:** The most common issue users face is using different Google accounts for purchasing and activating. Always ensure you use the same account for both steps.

**Device Limit:** A single TiviMate Premium subscription allows you to activate it on up to 5 different Android devices simultaneously. If you try to activate on a sixth, you'll need to deactivate it from one of your existing devices first.

**Syncing Issues:** Occasionally, it might take a moment for the purchase to sync across Google's servers. If Premium doesn't activate immediately, try restarting your TiviMate app or even your device, and then attempt the activation again.
