

INDEPENDENT COMMUNITY BANKERS of AMERICA®

PLAN FOR PROSPERITY PETITION

The Independent Community Bankers of America® (ICBA) *reiterates our willingness to engage with the 115th Congress in creating a new era of economic growth and prosperity and emphasizes the urgency for action.*

Early this year, ICBA released its 2017 Plan for Prosperity: The Community Bank Agenda for Economic Growth, a comprehensive policy plan built from the input of community bankers nationwide.

ICBA's Plan for Prosperity ("the Plan") is an agenda for regulatory relief that will allow community banks to thrive by doing what they do best—serving and growing their communities one loan at a time. By reducing the current unsustainable regulatory burden, the Plan will ensure that scarce capital and labor resources are used productively, not sunk into unnecessary compliance costs. This will enable community banks to better focus on lending and investing to directly improve the quality of life in communities of all sizes across the country. The Plan also includes provisions on access to capital, regulatory relief, mortgage reform, bank oversight and examination, community bank tax relief, and agriculture and rural America. Each of these areas should involve input from community bankers as vested stakeholders in growing the economy, spurring job growth, and promoting localized lending.

To reaffirm ICBA's dedication to advancing substantive policy changes in these focus areas, we present to you the undersigned list of over 10,000 community bank employees and advocates endorsing the Plan for Prosperity from states and congressional districts across the country. At 10,000 strong, community bankers are united in seeking opportunities to contribute to growing our nation's economy and enacting fundamental legislation that will benefit generations to come.
